

Italian artisan MATTRESSES

Il Materassificio and Over the Top Interiors have team up to create the latest mattress in aviation, to provide you with the most luxurious sleeping experience onboard an aircraft.

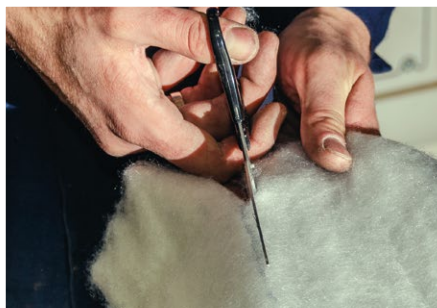

Inflight sleep reimagined

- There are many ways to experience comfort and luxury on a private jet. For us, it starts with an effortlessly uninterrupted night's sleep that allows transformative rest. Having the perfect bed is the foundation to getting the sleep that your body and mind need to wake up refreshed and inspired.
- To match the unparalleled comfort of your jet, we have created a mattress specifically designed for aviation, and tailor-made with each aircraft order.
- Our most luxurious aviation mattress is carefully crafted by the most experienced bed makers and traditionally hand-made to support your entire body using advanced materials selected for their comfort, safety and lightweight nature. We can also help you dress and accessorize your bed with the most luxurious natural linens tailored to your style and needs.
- Quality sleep helps reduce jet lag, making life at 42,000 ft more comfortable.

Safety in design

- We offer you a mattress that is more than an improvement on what has been done before, its innovative design takes sleeping onboard to a new level.
- It gives peace of mind and total satisfaction with regards to the well-being and safety.
- All materials used in the construction of the mattress are specifically engineered to meet certification requirements.
- Over The Top Interiors mattresses are designed to meet FAA regulations.
